

Effective SAFETY Solutions

SOLUTION N°42

Company: Žiar nad Hronom

Location: EAST EUROPE

Business: SAPA EXTRUSION

THE ISSUE

Work at heights is one of the most dangerous activities. Sometimes is very complicated find a solution for safe work at heights. In case of work at heights operator must be safely fixed

THE SOLUTION (additional level of protection put in place)

Type: Technical Procedures Others

Description of key feature or change versus current conditions:

We installed new movable fall protection – portable roof anchor. The fall protection is a movable, we can used everywhere on the roof. It is applicable where there is a safety required during occasional work at height. Installation of the anchor system is simple, fast and efficient. Due to its modular design, the installer will never have to lift more than 25kg (12x25kg).
