

Effective SAFETY Solutions

SOLUTION N°72

Company: Constellium

Location: Ravenswood

Business: Plate

THE ISSUE

There is a significant risk that employees can be injured when they have to guide a load with hands while using lifting devices.

THE SOLUTION (additional level of protection put in place)

Type: Technical Procedures Others

Description of key feature or change versus current conditions:

A visual hand is being trialed on lifting devices. The hand shows the operator a safe position for their hands to be placed if touching the load is necessary.

PICTURES (if applicable) or ADDITIONAL INFO

SAFETY BENEFITS – pros/cons

Visual and easy to implement.

This tool is used only if an engineering solution cannot be implemented.

IMPLEMENTATION COST (k€) AS APPLICABLE

The cost is insignificant.
